

## *Adam Faucett Bio*

Little-Rock-born singer-songwriter Adam Faucett carries a voice “that knocks your brain into the back of your skull” (*The Onion A.V. Club*) and a catalog of swamp-soaked folk, blues, and cosmic Americana that has landed him on stages with the likes of Jason Isbell, Lucero, King Buzzo and Weedeater.

Since going solo in 2006, he has released six critically praised albums—most recently *New Variations of the Reaper* (Last Chance Records, Sept. 2025)—and toured relentlessly across the U.S. and Europe, earning spots on *American Songwriter’s* “Top 50 Albums of the Year” and *PopMatters’* “Top 20 Americana Albums.” His Arkansas-gothic narratives, keening and wailed, make any spot feel genuinely present, but somehow timeless.
